TANMAY KALBANDE

Data Scientist & Software Engineer

kalbandetanmay@gmail.com +91 737-838-1494 LinkedIn GitHub Portfolio

Nagpur, Maharashtra, India

PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience building AI systems and data-driven solutions. Proven track record in developing multi-agent AI systems, predictive models, and customer segmentation tools that deliver measurable business impact. Skilled in Python, SQL, and machine learning frameworks, with hands-on experience deploying production-grade solutions that improve operational efficiency and decision-making.

PROFESSIONAL EXPERIENCE

Software Engineer

April 2024 - Present

Capgemini

- Developed multi-agent AI-powered work note formatter using Flask and AI models, transforming unstructured service desk notes into structured knowledge base entries, reducing resolution time by 35%
- Built real-time quality assurance pipeline with dual AI agents, improving knowledge base reliability by 60% through automated error detection and validation
- Designed knowledge generation engine that enhanced team documentation accessibility by 45%, streamlining information retrieval processes

Data Analyst Trainee

November 2022 - December 2023

Rubixe

- Built predictive maintenance models using Random Forest algorithm, reducing equipment downtime by 25% and minimizing operational costs
- Developed customer segmentation system using K-Means clustering, enabling targeted marketing strategies and improving campaign effectiveness
- Created lead scoring models with 85% accuracy, increasing sales team efficiency by 20% through improved prospect prioritization
- Designed interactive Tableau dashboards that transformed complex datasets into actionable business insights for stakeholders

EDUCATION

Bachelor of Engineering in Mechanical Engineering 2019 - 2022

Prof. Ram Meghe Institute of Technology & Research, Amravati University

CGPA: 9.3/10.0

Diploma in Mechanical Engineering 2016 - 2019

Government Polytechnic, Murtijapur

Score: 80%

Certified Data Scientist Bootcamp 2022

DataMites™

SKILLS

Languages: Python, SQL, R

ML/AI: Random Forest, K-Means Clustering, Multi-Agent Systems

Frameworks: Flask, NumPy, Pandas, Scikit-learn

Databases: SQL Server

Visualization: Tableau, PowerBI, Matplotlib, Seaborn

Big Data: Hadoop, Spark

KEY PROJECTS

Pustakam - AI Book Writer

Built AI-powered book generation engine that creates structured, context-aware books on any topic. Features sequential generation with memory retention and supports multiple AI models for privacy-focused, local-first operation.

AI-Tutor

Developed personalized AI tutoring platform using Google's Gemma model with multiple teaching personas, context-aware quiz generation, and interactive learning flowcharts.

Village Directory

Developed AI-powered village phone directory with admin portal for record maintenance and updates. Integrated intelligent AI capable of accessing and sorting data accurately, providing fast and efficient query resolution. Created a self-sustained system for streamlined community information management.

AI Data Assistant for Business Insights

Developed conversational AI system that allows users to query datasets in natural language and receive analytical insights. Integrated Python analytics engine with AI models to automate reporting and data exploration.

CERTIFICATIONS

- AWS Cloud Technical Essentials • December 2024
- Foundations: Data, Data, Everywhere - Google • April 2024
- Technical Support Fundamentals - Google • December 2023
- Certified Data Scientist - IABAC • September 2023
- Data Science Foundation - IABAC • August 2023
- Certified Data Scientist - DataMites™ • April 2023
