

TANMAY KALBANDE

DATA ANALYST • ML PRACTITIONER • PYTHON & SQL

+91 737-838-1494 | kalbandetanmay@gmail.com | tanmaysk.in
linkedin.com/in/tanmay-kalbande | github.com/tanmay-kalbande | Bengaluru / Pune

PROFESSIONAL SUMMARY

Data Analyst and ML Practitioner with **2+ years** of experience building predictive models, running statistical analyses, and translating complex data into actionable business decisions. Proven impact across **lead scoring (85% accuracy, +23% sales conversion)**, customer segmentation, **churn prediction (AUC 0.82)**, cohort analysis, and Power BI / Tableau dashboards serving senior stakeholders. Strong SQL and Python foundation; hands-on with hypothesis testing, A/B testing, and statistical validation. Independently builds AI-powered analytics tools: demonstrating technical depth well beyond standard analyst scope.

EXPERIENCE

Data Analyst | Capgemini, Noida

Apr 2024 – Present

Full-time

- Analysed incident and operational data in SQL to identify recurring failure patterns, enabling client teams to prioritise remediation across high-priority service tiers.
- Built ETL pipeline automating data cleaning and transformation: reduced manual entry errors by **40%** and saved **10+ hours/week** across the team.
- Designed and maintained **8+ Power BI dashboards** (DAX, Power Query) across 3 business units, delivering real-time KPI visibility to senior leadership.
- Standardised metric definitions and reporting frameworks across cross-functional teams: cut manual data extraction time by **30%** and improved data trust stakeholder-wide.

Data Analyst Trainee | Rubixe, Nagpur

Nov 2022 – Dec 2023

Full-time

- Built lead scoring model (Random Forest) achieving **85% accuracy**: improved sales conversion by **+23%** and cut sales outreach effort by 15 hours/week.
- Developed K-Means customer segmentation model producing actionable clusters that directly shaped targeted marketing strategy for business stakeholders.
- Built predictive maintenance models on sensor data to identify equipment failure patterns ahead of breakdowns: surfaced proactive intervention opportunities.
- Designed Tableau dashboards translating ML outputs into clear business visuals for non-technical decision-makers.

PROJECTS

Lead Scoring & Customer Segmentation

Python • Scikit-learn • K-Means • Random Forest • Tableau

- End-to-end ML pipeline: data cleaning → feature engineering → model training → Tableau presentation.
- Lead scoring (Random Forest): **85% accuracy, +23% sales conversion, -15 hrs/week** outreach saved: directly adopted by sales team.
- K-Means segmentation produced actionable customer clusters adopted by business teams for campaign targeting.

SQL Cohort Retention Analysis

SQL • Window Functions • CTEs • DATE_TRUNC • LAG() • Python • Matplotlib

- Pure-SQL cohort analysis using DATE_TRUNC, LAG(), and self-joins: zero Python dependency for core analysis.
- Key insight: Q4-acquired customers showed **35% higher** 6-month retention than Q1: directly reshaped marketing budget allocation.

Customer Churn Prediction + Statistical Validation

Python • XGBoost • Scikit-learn • Statsmodels • Seaborn

- Churn pipeline (Logistic Regression, RF, XGBoost). Chi-square + t-tests ($p < 0.05$) for feature validation.
- **AUC 0.82**: identified 3 high-risk segments driving 60% of churn volume, enabling targeted retention campaigns.

A/B Test - Checkout Conversion

Python · Pandas · SciPy · Statsmodels

- Analysed A/B test ($n=10,000$). Variant B: **8.5% conversion lift** ($p < 0.01$, 95% CI: [4.2%, 12.8%]). Simpson's Paradox check passed.
- Projected **₹12L annual revenue uplift**: led to full product rollout.

SKILLS

Languages Python (primary) · SQL · R · JavaScript (basic)

Analysis & ML Pandas · NumPy · Scikit-learn · XGBoost · Random Forest · K-Means · Regression · Feature Engineering · Statistical Testing · A/B Testing · Cohort Analysis · Time Series

Visualisation Tableau · Power BI (DAX, Power Query) · Matplotlib · Seaborn

Databases SQL Server · PostgreSQL · MySQL · Supabase

Cloud & Tools AWS (Certified) · GCP · Jupyter · Streamlit · Excel · Git/GitHub · FastAPI

Other ETL Pipelines · Data Modelling · Star/Snowflake Schema · Prompt Engineering

EDUCATION

B.E. Mechanical Engineering

2019 – 2022

Prof. Ram Meghe Institute of Technology & Research, Amravati University · CGPA 9.3 / 10.0

CERTIFICATIONS

- **AWS Cloud Technical Essentials**: Amazon Web Services (Dec 2024)
- **Certified Data Scientist**: IABAC (Sep 2023)
- **Google Data Analytics Foundations**: Google (2024)
- **DataMites Data Science Bootcamp** (2023)

BEYOND THE DESK

- **Pustakam AI**: AI-powered content platform accepted into Z.ai Startup Program. Demonstrates applied AI engineering beyond standard analyst scope. (pustakamai.tanmaysk.in)
- Public GitHub with data analysis notebooks, ML pipelines, and automation scripts: github.com/tanmay-kalbande
- Portfolio blog documenting analytical methodologies: tanmaysk.in
